

PAVAN SAI CHARAN NAYUDU

Phone number: (+91) 8500756091 (Mobile) | Email address: pavansaicharan2004@gmail.com

SUMMARY

Profile Overview

Information Technology undergraduate with a focus on Artificial Intelligence and Machine Learning. Skilled in Python programming, web development, and data processing, with hands-on experience in building practical applications and working with real-world datasets.

EDUCATION AND TRAINING

12/07/2022 – CURRENT Bhimavaram, India

INFORMATION TECHNOLOGY (IT) Sagi Rama Krishnam Raju Engineering College (SRKREC)

Final grade 8.02 / 10.0

12/06/2020 – 12/04/2022 Eluru, India

INTERMEDIATE Sasi Junior College

Final grade 954 / 1000

12/06/2019 – 24/04/2020 ELURU, India

SSC Sasi E.M High School

Final grade 530/600

WORK EXPERIENCE

FULL STACK WEB DEVELOPMENT INTERN – - BLACKBUCK ENGINEERS PVT. LTD – 01/05/2025 – 15/07/2025 – HYDERABAD, INDIA

- Developed web applications using **MERN stack (MongoDB, Express, React, Node.js)**
- Designed and implemented backend APIs and database integration
- Built responsive user interfaces and handled client-server communication
- Gained hands-on experience in full-stack development workflows

ARTIFICIAL INTELLIGENCE, MACHINE LEARNING AND DATA SCIENCE INTERN – - INTERNATIONAL INSTITUTE OF DIGITAL TECHNOLOGIES – 01/04/2024 – 30/05/2024 – INDIA

- Learned fundamentals of Artificial Intelligence, Machine Learning, and Data Science
- Worked with datasets for data preprocessing, cleaning, and analysis
- Applied basic supervised and unsupervised learning techniques
- Gained understanding of model evaluation and performance metrics

LANGUAGE SKILLS

Mother tongue(s): **TELUGU**

Other language(s): **ENGLISH**

TECHNICAL SKILLS

Languages

C, python

Technologies

Flask, Streamlit, Playwright, HTML, CSS

Databases

MongoDB, SQL

PROJECTS

AI-Based Medical Document Processing System — Python, OCR, Streamlit

Developed a system for processing medical documents using OCR (Tesseract) to extract and analyze text data. Implemented preprocessing techniques and built an interactive interface using Streamlit for efficient document handling.

Intrusion Detection System for 5G Networks — Machine Learning, Flask

Developed a machine learning-based intrusion detection system to identify malicious network traffic. Applied Random Forest and Decision Tree algorithms with feature selection techniques to improve detection accuracy. Built a Flask-based web application for real-time traffic classification.

FreelanceNex Web Application — MERN Stack, MongoDB

Developed a full-stack freelance platform connecting clients and freelancers. Implemented role-based authentication, project management, and real-time communication features. Designed REST APIs and integrated MongoDB for efficient data handling.

Attendance Tracker — Flask, Playwright, SQLite

Designed an automated attendance tracking system using Flask and browser automation. Implemented data extraction and storage mechanisms for efficient record management.

CERTIFICATIONS

Certificates

- Web Developer Bootcamp with Flask and Python — Udemy (Dec 2024)
- Complete Python Developer — Udemy (Aug 2025)
- Python 101 for Data Science — IBM Skills Network (Jul 2025)
- SQL and Relational Databases 101 — IBM Skills Network (Aug 2025)

Google Cloud Skill Badges

- Earned hands-on skill badges from Google Cloud Skills Boost demonstrating practical experience in cloud technologies and real-world lab environments
- Completed interactive labs focused on cloud infrastructure, deployment, and data-related tasks
